

Miamisburg's Riverfront Park

Riverfront Park was named 2024 **Dayton Daily News Best of Dayton Best Playground**--out of all of the area parks, Riverfront Park is the park most accessible to Downtown Miamisburg. The park covers seven acres of green space along the Great Miami River. Riverfront Park has excellent access to the Great Miami River Recreation Trail. The park is also host to many area events such as concerts and carnivals. Ample parking and bike racks make the park very accessible to different forms of transportation.

The park is also a short walking distance to Downtown Miamisburg shops and restaurants. Many of the restaurants have added patio seating with views to the park. The park includes a permanent stage, river access, bike depot, water play fountains and restroom facilities. We hope you will join us in the park to continue the growth of this community space.
